SUMMARY

Software engineer experienced in building AI-powered applications, autonomous agent workflows, agentic commerce, and security automation. Worked across backend engineering, smart contracts, blockchain infrastructure, protocol research, and full stack development, with a focus on secure, privacy-aware, and verifiable production architectures.

EXPERIENCE

Founder

Glorian Labs

02/2026 - Present Remote

<https://glorianlabs.com>

Agentic Intelligence for the Next Economy.

- Leading R&D across autonomous coordination, agentic commerce, on-chain execution, AI agents, and security automation.
- Building the execution layer for autonomous agents through coordination protocols, verifiable workflows, and AI-native tools operating across open decentralized networks.

Full Stack Engineer

data phleet

11/2025 - 02/2026 Remote

<https://www.dataphleet.com>

NERC compliance management platform for electric utilities.

- Contributed to AI-powered document processing, device inventory, and compliance standards reporting workflows for regulated utility operations.

Full Stack Engineer

Capture Alpha

11/2022 - 11/2024 Remote

Blockchain solutions leader dedicated to providing infrastructure, validator services, and investments

- Founding engineer of Launch.Box, an agentic decentralized compute marketplace where AI agents discover, price, and allocate GPU resources.
- Designed an AI inference market and node deployment workflows for LLM execution and agent-orchestrated infrastructure.
- Managed nodes/validators across blockchain networks.

Blockchain QA Engineer

EXA Market

02/2023 - 04/2023 Remote

<https://exa.market>

Leading Algorand NFT marketplace and digital collectibles platform.

- Tested the marketplace APIs, blockchain router flows, collection syncers, and Teal smart contracts for production reliability and on-chain correctness.

Web3 Fellow & Community Contributor

Developer DAO

2021 - 2023 Remote

<https://www.developerdao.com>

Global developer community accelerating Web3 education, open-source collaboration, and decentralized ecosystem growth.

- Participated in leading Web3 builder communities and contributed to developer education, Solidity mentoring, blockchain workshops, and decentralized ecosystem research.
